Finished Project Report
Summer 2019-2020

Project Title: ONLINE JOB PORTAL
Section: E

Student Name	Student Id
Ashfaq Afzal Chowdhury	**17-35800-3**
Mahmud, Atm Mushfiq	**17-35378-3**
Md Fahim Sarkar	**17-35378-3**
Minhazul Islam Omi	**17-35811-3**

Write Your Project Title Here

Project Description:

Describe your project in short and its main functionalities. You can create sub-heading under this heading with your own formatting. (No more than 300 words)

Job portal is an application which connects employer and job seekers where employers are the source of the resources and the job seeker can find and apply for their targeted job. This document provides details about the entire software requirement specification for the online job portal. In this project, we want to implement this application through a centralized database and easy-to-use access for job seekers and job providers. Overall, we will have a clear idea of building any of this application

There are 4-types of Users here. They are:
• Super Administrator
• Job Provider/Company
• Job Seeker

Feature List:

In this project the "Super Administrator" has the following features:
• Manage all jobseeker section. Example: deactivate/edit jobseeker's information.
• Super Admin can add a new company.
• Manage complete employer section. Admin user can approve/deactivate/delete/ edit company information.
• Manage posted jobs. Like: activate/deactivate/delete/edit posted job.
• Super Admin user can post news/notices for all.
• Super Admin user can add/edit countries, cities, salaries range, qualification, institutes, job   industries, website ads.
• Super Admin can add/edit increment, bonus and allowance.
• Super Admin can search employers.

Project Folder Structure:

Job provider -   F:\xampp\htdocs\finalProject
Admin - C:\xampp\htdocs\MINE\final_project_webtech\Super Admin

Core Modules of the Project:

ADMIN

JOB SEEKER:

Feature List:

In this project the "Job Seeker" has the following features:

• Job Seeker can Search Jobs.

• Job Seeker can apply for jobs using job id.

• Job Seeker can edit their own profile.

• Job Seeker can Post a feedback to admin for any bug or problem.

• Job Seeker can view employee company names and details.

Project Folder Structure:

C:\xampp\htdocs/Project

Core Modules of the Project:

JOB SEEKER
